

Load Covering Solutions takes their 1994 Manual Locking Mechanism and converts to POWAIR

Dual Pneumatic Drive Cylinders

LCS has a Patent Pending 4 point dual locking latch design on both driver and passenger sides ensuring simultaneous engagement and disengagement of POWAIR locks

Patent Pending Dual Locking Latches

LCS POWAIR Heavy Duty Hardware is combined with simplistic design and off the shelf components for easy replacement

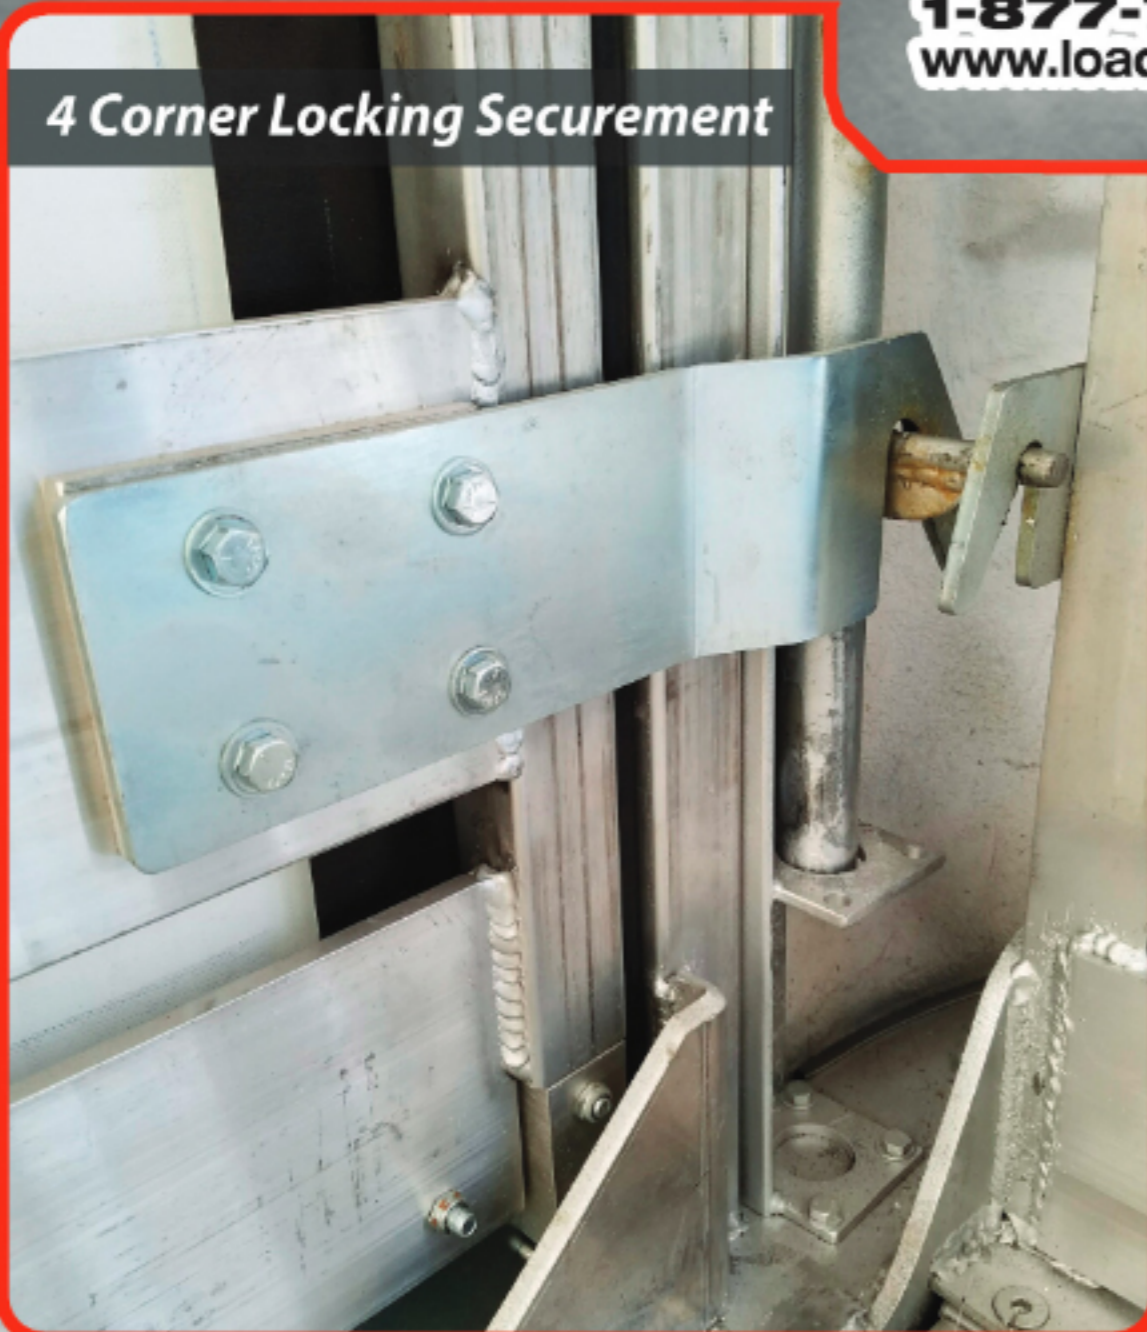

POW-AIR

LOCKING MECHANISM

1-877-790-5665
www.loadcovering.com

LCS provides for easy access, an air switch control located on the front driver side, at ground level and neatly concealed under the bulkhead

4 Corner Locking Securement

WHY POWAIR?

- Convenience of Operation
- One Side Operation Saves Time
- Safety over Cumbersome Manual Locks
- No Manual Locking Handle to Damage
- Easy Maintenance

Push / Pull Air Switch

Leading The Design In Load Covering Innovations!
